2505/21 New Woodland Consultation

A report was given from The Chair who said it was a successful meeting. The site is a commercial venture and while it will not be inaccessible to local users it is likely there will be some restrictions on the land. The site will remain unmanned and there would be no more parking places for visitors than the current ones allotted by North Lincs Council. This may quell some concerns about it being a destination walk like some local woods have become.

Meeting Closed at 8:42
